What employers are saying:

“I am a firm believer that you should invest and develop your workforce. It is important that opportunities are afforded to all staff throughout their working life. The apprenticeship programme is an important and effective part of any training and development strategy”.

Mike Armstong, Managing Director, Havering Care Homes Ltd

“At Roselock Ltd we use apprenticeships to help build the skills and capabilities of our team. Apprenticeships are critical in our efforts to mitigate any skill shortages and to plan for future service delivery.”

Samantha Finney, Director, Roselock Ltd
