## 'A Day in the Life Of...' project

AHP Roles in Primary Care - Share Your Experience!

As part of our ongoing efforts to promote and enhance understanding of AHP (Allied Health Professional) roles in primary care, we are launching the 'A Day in the Life Of...' project.

We invite all AHPs, especially those from lesser-known professions like Dietetics, Occupational Therapy, and Podiatry, to contribute to this initiative.

This project aims to provide insights into the daily experiences of AHPs working in general practice and shed light on the valuable but often unseen work they do. Whether you're involved in teaching, research, or any other aspect of your role, we encourage you to share your story and help others gain a better understanding of what you do.

Feel free to showcase the unique aspects of your profession and highlight the impact you make in the lives of patients.

Please send submissions to [Tara Homer](#) by **Tuesday 6th February 2024**. We look forward to reading your contributions and creating a vibrant community of AHPs in primary care!

# Richard Tompkins Nurse Development Scholarship

Calling all registered nurses, midwives, and health visitors!

If you're passionate about developing person-centred cultures of care, this is an opportunity you won't want to miss.

**The Richard Tompkins Nurse Development Scholarship** is an annual award specifically designed to foster professional growth in your field. The scholarship is open to practitioners working clinically in any health or social care setting UK-wide, with a particular focus on those at the Senior Charge Nurse level or equivalent.

As a scholarship recipient, you'll get:

1. Attendance at a **5-day FoNS residential programme** which focuses facilitating cultures of person-centred practice. The scholarship covers the cost of the programme fee, accommodation, food, and reasonable travel expenses.
2. 12 months of bespoke **mentorship** from FoNS, including face-to-face visits, email and telephone support, and the chance to connect with regional and national nursing leaders and educators/academics.

For more information and to submit a nomination, please visit the scholarship page [here](#).

## The Curriers' Millennium Trust awards bursary opportunity

The Curriers' Millennium Trust awards bursaries (up to £7,500 - £10,000 over two years) on an annual basis providing funding for pilot research projects and professional development training courses.

Applications are welcomed from any qualified practitioner in Primary Healthcare working in the London area. The closing date is **31st March 2024**.

Interviews this year are in **May 2024** and awards made the same day.

Please find out more and submit applications [here](#)

Please direct any questions to [Christabel Russell](#) Vick Honorary Secretary

# Long-Term Conditions Education Programme

This week BHR CEPN is hosting three one-hour webinars as part of the **LTC education programme** for the **Tier 1** and **Tier 3** cohort. For information on what each tier represents please read on below.

- **Musculoskeletal Low Back Pain** for Tier 1 on **Wed 24th Jan** at **2pm**- Click [here](#) to register
- **Chronic Obstructive Pulmonary Disease (COPD)** for Tier 1 on **Thursday 25th Jan** at **1pm**: Click [here](#) to register
- **Chronic Kidney Disease** for Tier 3 on **Fri 26th Jan** at **3.30pm** - Click [here](#) to register

Over the following weeks there will also be various other webinars for a variety of cohorts which are attached below including:

1. Asthma for Tier 3
2. Cancer for the Tier 1 & Tier 2
3. Atrial Fibrillation for Tier 2
4. COPD Tier 2
5. Heart Failure Tier 2
6. MSK Ankle/foot Tier 1

## Here's an outline of the three tiers:

**1)** Tier 1 is for those with patients at the early onset of their LTC experience and can benefit from light touch interventions, particularly looking at lifestyle changes and decisions. The target workforce for these T1 webinars is:

- Social prescribers
- Care coordinators
- Health & Wellbeing coaches
- Social Care staff
- Voluntary and Community Sector staff

Any other workforce who has service users with early onset LTC and can benefit from light touch interventions, particularly looking at lifestyle changes.

**2)** Tier 2 is for those with patients with more established LTCs but responding well to interventions. The target workforce for T2 webinars is main grade clinicians - **GPs, nurses, pharmacists and other Allied Health Professionals**

Pharmacist, Manpreet Saini and Gee Gahir will contribute to most of the T2 webinars. Please see attached flyers for details.

**3)** Tier 3 is for those with patients with complex conditions or those not responding to/complying with interventions. The target workforce for these webinars is senior clinicians such as **GPs and advanced clinical practitioners**.

**MSK Lower Back Pain**  
by **Advanced MSK Physiotherapist**  
**Sue-ellen Pereira** and **Senior HWBC**  
**Gee Gahir**  
**Tier 1 cohort**

Wed 24th Jan - 2pm on Zoom

This is part of **BHR CEPN LTC Education Programme**

[Click here to register](#)

Musculoskeletal (MSK) conditions affect many people and can affect your joints, bones and muscles and sometimes associated tissues such as your nerves. They can range from minor injuries to long-term conditions. Almost one third of the UK population, have a MSK condition such as arthritis or back pain. Symptoms can include pain, stiffness and limited movement, which affect quality of life and independence

**Learning Outcomes:**

- Understanding Low back pain
- Management and Monitoring
- Supporting self management

**Chronic Obstructive Pulmonary Disease as a Long-term condition**  
**Webinar by Dr Uzma Haque and**  
**Senior H&W being coach Gee Gahir**  
**Tier 1 cohort**

Thur 25th Jan at 1pm - on Zoom

This is part of **BHR CEPN LTC Education Programme**

[Click here to register](#)

Chronic Obstructive Pulmonary Disease (COPD) is associated with lifestyle risk factors and some environmental exposures. Appropriate management of established COPD through lifestyle change and therapies can prevent crises, delay further progression and lead to significant improvements in quality of life.

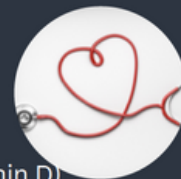

**Learning Outcomes:**

- Understand and identify the needs of service users
- Recognise the opportunities and role for non-medical support and interventions
- Feel more confident in supporting service users with early onset COPD

**Learning outcomes will look at a more in-depth analysis of the T2 webinar on CKD:**

- What is CKD?
- Why is CKD so important?
- Management for CKD (specific to classification, optimising BP and glycemic control, proteinuria management, anaemia and low vitamin D)
- AKI or CKD
- When to be worried about acute complications in CKD?
- What are we doing to improve early detection of CKD?

**Chronic Kidney Disease Webinar** by  
**Drs Abir Shaikh, Dania Shoeb,**  
**Sandeep Singh, Fearzana Hussain,**  
**Senior H&W Lifestyle Coach Gee**  
**Gahir and pharmacist Manpreet Saini**  
**for Tier 3 cohort**

Fri 26th Jan - 3.30pm on Zoom

This is part of **BHR CEPN LTC Education Programme**

[Click here to register](#)

The target workforce for this cohort are both clinical and non-clinical professionals namely:

**Tier 1 and 2 cohorts:**

- Social Care Staff
- Social Prescribers
- Care Coordinators
- Voluntary and Community Sector Staff
- Any other workforce who comes into contact with patients with cancer who can help with its management
- Allied Health Professionals
- Pharmacists
- Nurses
- GPs

**Learning Outcomes:**

- Understanding GP contract 2023/24
- Evaluate the strengths and limits of current screening programmes and an overview of NEL cancer screening uptake
- How to increase participation in national cancer screening programmes - a case study.
- Understanding the support and care needs of people with cancer
- The role of ARRS staff in Primary care cancer management
- Cancer Inequalities
- Update on NEL cancer programmes

**Cancer for Tier 1 & 2 cohort  
by Drs Jyoti Sood, Bunmi Olajide  
Sangeetha Pazhanisami and  
Senior HWBC Gee Gahir**

**Tue 30th Jan 1pm - on Zoom**

**This is part of BHR CEPN LTC Education  
Programme**

[Click here to register](#)

Musculoskeletal (MSK) conditions of the foot and ankle are an important public health challenge due to their increasing incidence combined with their substantial negative impact on patients' quality of life. Non-pharmacological treatments serve as the first line of treatment and are frequently used for patients with musculoskeletal conditions of the foot and ankle.

**Learning Outcomes:**

- Common foot and ankle MSK complaints
- Understanding at a basic level how these conditions occur
- Increase awareness of conservative treatment plans

**Musculoskeletal conditions for  
Ankle and Foot led by  
Muhammad Ibrahim Miah  
Tier 1 cohort**

**Tue 6th Feb at 2.30pm - on Zoom**

**This is part of BHR CEPN LTC Education  
Programme**

[Click here to register](#)

Chronic Obstructive Pulmonary Disease (COPD) is associated with lifestyle risk factors and some environmental exposures. Appropriate management of established COPD through lifestyle change and therapies can prevent crises, delay further progression and lead to significant improvements in quality of life.

**Learning Outcomes:**

- Fundamentals of COPD care
- Health literacy and what info to give to newly diagnosed COPD
- Prescribing for stable COPD
- When to use Steroids inhaled or oral
- Long term Oxygen therapy and Lung surgery

**Chronic Obstructive Pulmonary  
Disease as a Long-term condition  
Webinar by Drs Uzma Haque and  
Gurmeet Singh  
Tier 2 cohort**

**Thur 1st Feb at 1pm on Zoom**

**This is part of BHR CEPN LTC Education  
Programme**

[Click here to register](#)

**Asthma T3 cohort**  
by Drs Uzma Haque, Suparna Chakrabarti and Consultant Respiratory Physician Dr Manoj Menon

Tue 6th Feb 12.30pm - on Zoom

This is part of BHR CEPN LTC Education Programme

[Click here to register](#)

**Tier 3 cohort**

The target workforce for this cohort are advanced senior clinicians e.g.

- GPs
- advanced clinical practitioners

**Learning Outcomes:**

- How to diagnose and manage Asthma & COPD overlap.
- When to refer to secondary care
- **Bring your own case studies for review by the educators**

**Learning Outcomes:**

- Overview of Atrial Fibrillation and diagnosis
- Treatment of Atrial Fibrillation (AF)
- Stroke prevention in AF
- Case Studies

Atrial Fibrillation (AF) happens when abnormal electrical impulses suddenly start firing in the atria. These impulses override the heart's natural pacemaker, which can no longer control the rhythm of the heart. This causes highly irregular pulse rate. The cause is not fully understood, but it tends to affect certain groups of people, such as older people and people living with long-term (chronic) conditions such as heart disease, high blood pressure or obesity

**Atrial Fibrillation**  
by Dr Gurmeet Singh, Senior clinical pharmacist Mohammad Kanji & Clinical Pharmacist Malgorzata Burton  
Tier 2 cohort

Wed 7th Feb at 1pm - on Zoom

This is part of BHR CEPN LTC Education Programme

[Click here to register](#)

**Tier 2 cohort Webinar**

**Heart Failure by Drs Uzma Haque, Dania Shoeb, Senior HWBC Gee Gahir & Pharmacist Manpreet Saini**

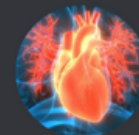

Tue 13th Feb - 1pm on Zoom

This is part of BHR CEPN LTC Education Programme

[Click here to register](#)

**We will look at:**

- What is Heart Failure (HF)
- What are its causes
- Why is it important
- How to diagnose it
- Key issues in an echo report
- How to optimise management in primary care
- How secondary care can make a difference
- Frailty, end of life care and heart failure
- The role of personalised care roles in shaping well-being through early intervention
- How personalised care can facilitate self-supported management of HF

# Physician Associates training

At BHR CEPN we are also hosting a webinar on Wed 21st Feb with Drs Jyoti Sood, Dania Shoeb and NEL PA Ambassador Marium Hanif.

## Physician Associates Webinar

### Background

We all know **General Practice is under huge pressure** where demand is outstripping supply and patients' needs are ever more complex.

The Physician Associate (PA) role has been introduced by NHSE and funded through ARRS to increase clinical capacity in General Practice. Working alongside GPs and the wider primary care workforce, PAs are bringing much needed expertise and capabilities to General Practice across England.

However, the PA role has attracted some controversy in the media and in addition hasn't landed well across BHR primary care.

**How can we work together to maximise the benefits of the PA role and continue to enhance clinical capacity across BHR?**

### Join us on Wed 21st Feb at 12.30pm

At this webinar you will hear from Drs Jyoti Sood and Dania Shoeb alongside NEL PA Ambassador Marium Hanif and you will learn:

- How PAs are being supervised
- How PAs are enhancing the capacity of general practice
- How PAs are improving the experience of care for our patients

[Click to register](#)

## Carers Identification & Referral Pathway Training

LBBD & Carers Hub are inviting Health, Social Care, Voluntary Sector to attend training to identify carers locally & refer to Carers Hub on **Monday 12th Feb** at **10am**.

Click [here](#) to register:

# Physician Associates training

Maudsley Health is offering two online courses for Physician Associates. The first is a simulation session for routine psychiatry tasks and team working. The second is a one-day course for assessing patients with common mental disorders. See below for more information

Maudsley  
Learning

## Physician associates course: Assessment & mental state

### About the course

This one-day online mental health course aims to support liaison and diversion service practitioners to refresh and develop further their skills and confidence in assessing patients with common mental disorders.

### Learning objectives

By the end of this course, physician associates will:

- Know what is required when taking a full psychiatric history.
- Know all the elements of a comprehensive psychiatric risk assessment.
- Know all of the elements of a mental state examination.
- Start to be able to describe common psychopathology using the mental state examination structure.
- Understand why someone may escalate and know the principles of verbal de-escalation using the Calm-Relate-Manage model.
- Have an awareness of the broad groups of medication used to treat psychiatric ill health and how they may impact physical health.
- Recognise the broad principles of the Mental Health Act and Mental Capacity Act, and how they may be applied.

### Target audience

- Physician associates

This course is commissioned by NHS England.

 This course will be taking place online.

 02/11/2023, 17/01/2024, 12/02/2024  
13/03/2024, 28/03/2024

 09:00 - 17:00

 All bookings shall be made via the Maudsley Learning website. To book, please click the button below and use the provided pin: NHSE2023

LEARN MORE

## Physician associates - Practising psychiatric competencies

### About the course

This is an online, simulation session providing best practice approaches for completing routine psychiatry tasks, plus soft skills development through effective teamworking and communication. Led by two experienced faculty staff, the course features three 'patients' in five simulated scenarios and video sessions, with a pre- and post-course evaluation. It is run as a half-day session in the morning or afternoon, and you can sign in from home via our learning platform.

### Learning objectives

It aims to refresh your knowledge and skills in these areas:

- Taking a psychiatric history, conducting a risk assessment, generating a holistic patient formulation, and performing a mental state examination in common mental disorders
- Management of common mental disorders
- The overlap of mental and physical health problems - and how to deal with the two together.
- How to verbally de-escalate challenging situations more effectively
- How to apply the Mental Capacity and Mental Health Acts
- The dynamics within a consultation and the factors that might impact on them.
- Your soft skills such as team working and communicating with colleagues.

### Target audience

Physician associates

This course is commissioned by NHS England.

 This course will be taking place online.

 31/10/2023, 09/11/2023, 30/01/2024  
14/02/2024, 26/03/2024, 17/04/2024

 09:00 - 17:00

 All bookings shall be made via the Maudsley Learning website. Click the below button to book. Use PIN: NHSE2023

[BOOK Now](#)

# **NHS PRIMARY CARE ENTRY LEVEL PROGRAMME**

## **KICK START YOUR CAREER IN HEALTH CARE**

This introductory programme is designed to support residents across North East London Boroughs, enabling them to gain essential employability skills in the NHS, and in particular General Practice Primary Care.

Learners will embark on a three week journey where you will learn key skills on becoming a receptionist/administrator in a GP Surgery. You will attend a 5 day classroom based training programme followed by a 2 week work placement in a Health Care setting.

### **What will you learn:**

- Customer service skills
- How to deal with Patients
- How to use the Clinical Systems
- Document Management
- Conflict Resolution and much more

If you would like to apply please complete the application via the link below:

**[CLICK HERE](#) to Register**

Note: Applications will close on the **29th  
January 2024**

Training will commence on the 19th  
February 2024

**If you have any queries please  
contact: [farduse.islam@nhs.net](mailto:farduse.islam@nhs.net)**

# Deprescribing of benzodiazepines and z-drugs: case studies

BHR CEPN and Waltham Forest Training Hub are inviting you to join an interactive webinar on "**Deprescribing of benzodiazepines and z-drugs: case studies**".

We will be discussing real-world cases and questions related to deprescribing benzodiazepines and z-drugs.

Our collective experiences and expertise will contribute to our learning, helping us to confidently engage in meaningful conversations with patients and to deprescribe these drugs more safely and effectively.

We encourage participants to bring a case study and specific questions for discussion, ensuring all patient identifying details are removed.

**Date and time:**

Thursday 8th February 2024, 12:00PM

**Location:**

via MS Teams

This session will build upon our previous presentation on the principles and tools for deprescribing, and we look forward to your participation as we continue to strive for excellence in pharmaceutical care. Remember, our patients' wellbeing is worth the extra effort.

To register please [click here](#).

(If you were not able to attend the previous session, the link to the recording can be found [here](#)

## Online webinar and e-assessment: Annual Health Checks for Patients with Learning Disabilities

**Annual Health Checks for Patients with Learning Disabilities - online webinar and e-assessment to start your PCNs Journey to delivering better outcomes!**

As you may be aware, the Annual Health Checks (AHCs) for patients with learning disabilities (PWLD) is a crucial initiative aimed at proactively identifying and addressing any health concerns and improving outcomes.

An audit we carried out revealed some quality concerns which need to be addressed. This audit highlighted inconsistencies in reviewing regular, PRN and psychotropic medications, blood tests, and inconsistencies in completing, reviewing and following up annual health care plans that are formed as part of the annual health check.

The aim of our training is to improve the overall outcomes of AHCs by utilising a structured medication review template within the GP system and then running a series of teaching sessions, webinars, and training events, specific to your own PCN, that will help to upskill clinicians in primary care to complete AHCs to a high quality and ensure action plans are followed up.

We believe that this training will help to ensure that clinicians are better facilitated to complete these comprehensive reviews in a meaningful way that provides maximum benefit to our patients. Ultimately, our goal is to improve patient attendance annually and make the review more time-efficient for the staff involved.

Therefore, BHR CEPN is funding one person to participate in this programme, from each PCN. Your staff will complete the online webinar on our website, and then work with our own AHC programme clinical lead to develop you own PCN's training programme.

If your PCN has not yet taken advantage of BHR CEPN's Annual Health Checks for Patients with Learning Disabilities training programme, now is the time!

For more information, please contact [Summer Cooper](#)

# Health Check Matters

## Improving the experience of Annual Health Checks for people with a Learning Disability

Join us for one of the workshops using 'Forum Theatre' to explore how the Annual Health Check feels from the viewpoint of people with a Learning Disability (LD), and how we can improve the patient experience and outcomes together.

The workshops are led by People First (Self Advocacy), a user-led organisation.

### Who should attend?

- Clinicians and non-clinicians working in primary care involved in Annual Health Checks for patients with a Learning Disability
- Participants will be joined by people with a Learning Disability who want to share their experience with health professionals

**Workshops are taking place on the following dates:**

- Tuesday 19th March – 1:30pm – 4:30pm
- Wednesday 20th March – 1:30pm – 4:30pm
- Thursday 21st March – 10.00am - 1.00pm

For more information or to book a place, contact Summer Cooper at BHR CEPN email: [summer@manoravenue.co.uk](mailto:summer@manoravenue.co.uk) call: 078488 32363

**These workshops are funded by BHR CEPN and BHR&WF SuperHub**

# Training Needs Assessment

## Calling all Personalised Care Practitioners!

The Personalised Care Practitioners workforce is a valued role within Primary Care Networks. We need to hear from you to ensure that we are offering training that best supports you in your role.

Do you feel like you are getting the training and development you need to thrive in your role? We want to hear from you so we can ensure that the right supports are in place.

Please complete the Training Needs Analysis [here](#). This will be instrumental for our planning for the year ahead.

We look forward to hearing from you! If you have any questions, contact [Summer Cooper](#)

## Navigating the NHS App Webinar

### Navigating the NHS App webinar

The NHS App can help streamline and improve patient experience. How confident are you at signposting patients to the NHS APP?

Sign up to the **Navigating the NHS App webinar** to find out how you can support your patients to make the most of the App and all the resources it has available.

This online training is available for **all staff, both clinical and non-clinical**, who have patients that use the NHS App.

Join us via zoom, on Thursday 8 February, 12.30 – 1.30pm

Is this a training you could benefit from?

[Click here](#) to sign up!

For more information, contact [summer@manoravenue.co.uk](mailto:summer@manoravenue.co.uk)

AND TRAINING HUB

# Multiprofession Faculty Development Workshops

We're pleased to announce a series of Faculty Development workshops for supervisors in London across any medical professions available to book. Here are the upcoming sessions:

## 1) The Human Dimension of Supervision Workshop

This half day workshop is open to educators from primary care and secondary care and is multi-professional.

- **Tuesday 30th January 2024** from 9.00am to 12.30pm

Course Registration link- [Please book here](#)

**Venue**- Asia House, 63 New Cavendish Street, London W1G 7LP

- **Tuesday 30th April 2024** from 9.00am - 12.30pm

Course Registration link - [Please book here](#)

**Venue** - Mary Ward House, 5 - 7 Tavistock Place, London WC1H 9SN

## 12) Identity and inclusion Workshop

This one day workshop is open to multi-professional educators from primary and secondary care. We cover differential attainment and the effect of bias on learners. We consider how to mitigate against bias in order that the learning environment is inclusive and generative for all learners.

- **Wednesday 6th March 2024 9.00am - 16.00pm**

Course Registration link - [Please book here](#)

**Venue** - The Wesley Euston Hotel & Conference Venue, 81-103 Euston Street, London NW1 2EZ

## 3) Bullying and Harassment Workshop

A half day interactive course open to multi professional educators from primary and secondary care. Aims to share experiences, consider approaches, discuss cases and ask questions of how we might prevent, respond to and support learners/supervisors affected by bullying & harassment in our workplaces.

- **Thursday 22nd February 2024, 09.00-13.00**

Course Registration link- [Please book here](#)

**Venue** - Montague on the Gardens, Red Carnation Hotels, 15 Montague Street, London WC1B 5BJ

## 4) Workplace Violence and Aggression - Supporting the Trainer Workshop

A workshop to help you support your trainees' following incidents of workplace violence and aggression. Open to multi-professional educators from primary and secondary care.

- **Thursday 21st March 2024, 12.00-13.30**

Course Registration link - [Please Book Here](#)

**Venue** – Online on MS Teams

You can find further information on any of these workshops on the [Faculty Development workshop pages](#)

For any enquiries please contact [Feyisayo Bukola Ayodele](#)

# Apprenticeship Opportunities

National Apprenticeship Week – 1st Week February 2024

## Promote your Upcoming Vacancies

Barking Learning Centre are holding a Jobs Fayre on the morning of 7th February 2024. If you would like to attend or provide your upcoming apprenticeship and entry level vacancies for promotion at the event on your behalf, please contact [Gemma Connelly](#).

## How Can Apprenticeships Work for You? Webinar – Thursday 8th February 2024 @ 1:00-2:00pm

An opportunity to explore how apprenticeships can benefit you and your organisation. We will provide an introduction to how apprenticeships work and how they can be used as a tool to for career and workforce development.

To book a place, please contact [Kerrie Haley](#).

## New Year New Career! Apprenticeships are a Useful Tool, Helping Managers with Workforce Development

### Trainee Nursing Associate (TNA)

March 2024 applications are still open but time is running out! Please contact [Kerrie Haley](#) for further information on this and further cohorts for 2024 and to book onto an information Briefing.

### Business Analyst Training to Support Digital and Transformation Leads

This apprenticeship standard, lends itself to be customised to job roles such as PCN, Digital and Transformation Leads and also other business management roles. We are working with a training provider who has extensive experience with Primary Care workforce training and has developed a specialist offer.

For further information contact [Kerrie Haley](#).

### Level 3 Team Leader or Supervisor

This apprenticeship standard is for those who are ready to progress to a first line management role, with operational and project responsibilities or responsibility for managing a team to deliver a clearly defined outcome.

For further information contact [Kerrie Haley](#).

### Level 5 Operations and Departmental Manager

Management training for Practice Managers and Business Managers.

For further information contact [Kerrie Haley](#).

Contact [Kerrie Haley](#) for further inquiries on any of the apprenticeships via email or on 07895 526907.

# Apprenticeship

# NHSE Apprenticeship & Events

## London Cancer Community of Practice Annual Celebration Event

Date: **7th March 2024** at **09:30 – 16:00**

This is a joint collaboration with CLCH, NHS England London and TCST and will reflect on achievements from the past year and also look to what's in store for the future in 2024/25 for the London Cancer Community of Practice (CoP). This event is open to London GPNs, Community Nurses and AHPs and those with specialised roles in cancer.

To register your place please [click here](#). Event agenda attached in email circulation.

Keynote speakers include:

- **Julie Roye**, RCN 'Nurse of the Year' and Primary Care Lead Nurse, East London Foundation Trust
- **Louise Brady**, National Primary Care Nursing Lead, NHS England
- And invited stakeholders from CLCH, TCST, NHSE, Cancer Alliances, Cancer Charities, Patient Partners and Cancer Clinical specialists from across London.

Lunch and refreshments will be provided. Attendee numbers will be limited due to the venue capacity. Contact [Sandra Dyer](#), at TCST, with any questions.

## Delivery Plan for Recovering Access to Primary Care: National care navigation training: dates now available until **March 2024**

Thousands of primary care colleagues have taken up this free national offer, equipping learners to effectively communicate with patients and the multi-disciplinary team. Training is accredited, with foundation and advanced modules available. A new online collaborative platform has launched for learners and their managers to access resources and to connect with their peers. Managers are encouraged to register their nominated staff member to complete the training to develop a strong understanding of care navigation.

Please [read guidance](#) for further information on how primary care staff members can access this training.

## Sign up to Cancer Genomics in Primary Care lunchtime webinar

Date: **8th February 2024** at **12:00 – 13:00**

This webinar will be hosted by esteemed clinician, **Dr Angela George**, who is Clinical Director of Genomics at the Royal Marsden. This webinar forms part of the Cancer Community of Practice series of events for 2023-24. The Cancer CoP is a collaboration with the London Transforming Cancer Services Team (TCST), NHS England (London), Workforce, Training & Education Directorate and Central London Community Healthcare Trust (CLCH).

Find out more about the webinar and register your place [here](#). If you have any questions, please contact [Sandra Dyer](#), TCST.
