NB Medical 'Hot Topics' GP Update

Attention!! All clinicians working across NEL: An enriching GP Update course has been scheduled for your professional development. This course will provide a comprehensive update on the latest developments in the literature and serve as a valuable platform for continuing professional development (CPD).

Date: **Saturday, 20th April 2024**

Time: **09:30 – 17:00 (Doors open from 08:30)**

Location: Impression Events Venue, Milner Road, West Ham, London, E15 3AD

To register, please visit the [NB Medical website](#). Select the resource relevant to your borough from the list below:

- **FAO of B&D**
- **FAO of Havering**
- **FAO of Redbridge**

The regular price for this course is £200, but thanks to the Training Hub, a subsidised rate of £99.99 is available exclusively for local staff. This fee includes all-day refreshments and a three-course meal.

Additional details regarding parking facilities, dietary and other accessibility requirements will be provided closer to the event.

Please note that places are limited, so early booking is strongly advised. See attachments for the access code for your borough.

Motivational Interviewing

Online – Live Zoom

Interactive Study day

24th April 2024

9:00am to 9:25am access meeting then locked and started at 9-30am to 4pm

1

Is Motivational Interviewing for me?

This interactive, lighthearted online, live study day is suitable for any and all members of the team!

Experience MI skills firsthand without role-playing or lengthy slides. Registered delegates receive CRAFT cards and a training aid.

Engage in dynamic learning, influencing session content. MI fosters effective communication, saving time and preventing burnout.

Don't miss this chance to enhance your skills and make a difference. Register now!

2

What happens on the day?

We will use memorable explanations, demonstrations, interaction in pairs and most importantly relax and have fun.

The extensive wardrobe and scenery available at our large training studio allows the tutors to create characters and situations to demonstrate the topics which are pertinent to our delegates.

Face to face, and telephone consultation techniques will be included.

3

Who is eligible to attend?

Primary Care practitioners managing patients with respiratory complaints.

4

How do I register?

Please [click here to register through Ticket Leap](#)

Timetable

9:00	Registration and Online access audio and visual confirmed
9:30	Introductions – and online etiquette
9:30	MI – What is it – why does it work – How the brain receives stuff! - Principles and Background in a nutshell
10:00	The spirit & principles of MI
10:45	Offering Advice – how to do this without pi**ing people off!
11:15	Official Break
11:30	When Ambivalence meets the Righting Reflex
12:00	Change Talk– What is it? How can I find it? Why does it matter?
12:45	LUNCH
13:30	MI – Open questions, affirmations, reflections and summaries set in context and practiced
15:00	Tea Break
15:15	Putting it all together – demonstration designed by the delegates
15:45	Questions and Evaluation
16:00	Close

Training in Redbridge for Identifying Hidden Carers

To all professionals working in Redbridge across health and social care

- Wednesday 4th September 2024, 10 am -11 am

Please see the attached flyer. **Click to register**

Email s.williams@rcss.org.uk or call t: 020 8514 6251 m: 07398 414523 to register your place.
Zoom joining instructions to follow nearer the time.

Fundamentals of Immunisation

The UK Health Security Agency and UCL Great Ormond Street Institute of Child Health are running a Fundamentals of Immunisation course. This two-day intense theoretical course is designed for those new to a role in immunisation and is most suited to those who give or advise on a range of different vaccines.

The course comprises of a series of lectures from national immunisation experts and will provide delegates with the latest information on the range of topics included in the '[Core Curriculum for Immunisation Training](#)'. A basic level of prior immunisation knowledge and familiarity with the Green Book (Immunisation against infectious disease) will be assumed.

Date of event: 12th and 13th June 2024

Venue: UCL Great Ormond Street Institute of Child Health 30 Guilford Street London WC1N 1EH

Course fee: £200 for 2 days (£100 for one day)

The programme includes the following topics:

- why immunisation matters
- the scientific basis of national vaccine policy: designing, informing and monitoring immunisation programmes
- immunology of immunisation
- vaccine manufacture and vaccine trials
- monitoring vaccine safety
- current issues in vaccine preventable diseases
- vaccine coverage data collections
- legal issues including consent
- practical issues: storage and administration
- maximising immunisation uptake
- talking with parents about immunisation

An Introduction to Becoming an Anti-Racist Health & Care System

NEL Training Hub is offering a one-day workshop on 'Introduction to becoming an **Anti-Racist Health & Care System.**'

When:

Monday 13th May 2024, 09:30-16:30

Where:

Holiday Inn Express Newbury Park King George Conference Rooms Ilford IG2 7RH (parking available)

[CLICK HERE TO REGISTER](#)

Lunch and refreshment provided

Health and Care staff in North East London are invited to learn about racism in healthcare services and its impact. Our goal is to foster an inclusive culture, address inappropriate or racist behaviours, and understand concepts like privilege and allyship.

Attendees will explore the understanding of racism, its effects on health inequalities, the meaning of being anti-racist, and how to develop an anti-racist approach in their work. Limited spaces are available, [register now or join the waiting list.](#)

The Role of the Supervisor in Diabetes Management – Webinars

This 2.5-hour webinar is aimed at supervisors i.e. GP trainers, Pharmacists, PA Students and Paramedics; working in North East London. The focus of the programme is supervising health professionals responsible for Diabetes in a multidisciplinary environment. This webinar introduces the supervisor's role and explains the GMC/CQC regulatory requirements.

The theories will build on the importance of ensuring that the learner develops and is motivated to achieve outcomes. The workshop will also focus on the competency assessment framework along with a case-based study for review and discussion.

Timings: 10.00 – 12.30

Dates (you only need to join one of the dates):

- 7th May
- 21st May
- 30th May
- 13th June

To book a place on any of the above dates, [book here](#). See more information on the flyer [here](#)

Webinar: Asthma Management for Children and Young People

Are you looking to enhance your skills in managing asthma in children and young people? We have an exciting opportunity for you!

Due to the success of last year's Asthma Management for Children and Young People, BHR CEPN are thrilled to invite you to our upcoming webinar, "Asthma Management and Treatment in Children and Young People," where you'll gain invaluable knowledge and practical insights from leading experts in the field.

In this interactive webinar, you'll learn how to:

- Confidently carry out comprehensive asthma assessments for children and young people
- Contribute to the accurate diagnosis of asthma in this age group
- Effectively escalate and de-escalate asthma treatment as needed
- Manage acute asthma attacks with confidence
- Provide competent post-asthma attack care

Whether you're a GP, practice nurse, pharmacist, or healthcare assistant working with children and young people's asthma, this webinar is tailored to meet your needs and enhance your expertise.

We will be running two sessions on the following dates:

- Thursday, May 16th, 1 - 2 PM
- Wednesday, June 12th, 12 - 1 PM

Spaces are limited, so [click here](#) to register and be part of this invaluable learning experience!

PRACTICE TEAM DEVELOPMENT

Non-clinical triage - 1 day

CLICK ABOVE FOR MORE DETAILS.

Post covid patients' expectations of their GP practice has both changed and hardened with perceptions that surgeries no longer want to allow patients access to their GP unless they are prepared to participate in an 8am lottery every morning to try and get an appointment.

Much of the problem is that minor issues can be dealt with by other members of the practice team rather than require time with a fully qualified GP

14th May 2024
9:30am- 5:00pm

This *one day* session includes how to:

- Improve patient access and care
- Give patients better and quicker access to GP appointments.
- Free up GP time to deal with patients' more complex health issues – and thereby reduce workload
- Maximise workforce efficiency and time management by directing issues to the best qualified/most relevant team member

Who are the courses for?

Clinical and non-clinical staff in patient facing and administration roles.

This is just one of the programmes we have designed based on your feedback.

The range includes programmes for managers, administrators, and front line staff. All are practical, interactive and are fully supported by workbooks and reference material. They are designed to cover and refresh essential skills in a challenging and rapidly changing Primary Care environment.

London Multi-Professional Supervisor Course

NHS England has introduced a new Multi-Professional Supervisor Course, specifically designed for non-GP roles involved in primary care. If you're a clinician who supports learners as an educational supervisor, this course is a must.

Becoming an approved educational supervisor involves two steps. Firstly, register for and complete the Multi-Professional Supervisor Course. Secondly, undergo an ICS Training hub application and assessment after finishing the course.

This course is ideal for anyone within general practice who isn't a GP but supports the educational supervision of other clinicians. Admission prerequisites include:

- Not being a GP
- Working in an approved learning environment
- Having at least 2 years post-CCT or equivalent experience in mentorship, supervision, and education relevant to their clinical specialty
- Engagement with the borough Training Hub's Multi-Professional Faculty Group (MPEG)
- Commitment to attending all four in-person workshops of the course and completing any pre-course reading or summative work

For those working in GP practices that aren't approved learning environments, evidence of an application or initiation of the application process within six months is needed.

GPs aiming to become trainers or educators should complete the GP Supervisor Course and NCL application form. More details about this process can be found [here](#).

The course spans four in-person study days over three months:

Day 1: Introduction and preparation for teaching and facilitating in the workplace

Day 2: Navigating supervision challenges and understanding lesson planning and teaching core concepts

Day 3: Inter-professional education and assessment

Day 4: Peer review, portfolio review, discussion, and next steps

The next cohort (cohort three) is now accepting expressions of interest. The course dates are as follows:

Day One: **16 April 2024**

Day Two: **15 May 2024**

Day Three: **13 June 2024**

Day Four: **02 July 2024**

Please note that attendance on all four dates is compulsory to successfully complete the course. Register for the Multi-Professional Supervisor Course by completing the [EOI form HERE](#)

Spaces are limited, and applications may be prioritised according to local borough needs and educator/trainer capacities. For more information, direct your queries to: england.WTELondonPrimaryCare@nhs.net

BHR Long Term Condition Webinars

Long-Term Condition (LTC) patients are growing in demand and severity, and some have multi-morbidities. There is a need for more responsive and coherent care and treatments need to be devised through collaboration with partners. The BHR LTC education programme was established in order to support both clinical and non-clinical workforce, for different tiered patients to manage these conditions in the most effective way.

Each LTC condition has been divided into three cohorts:

1) Tier 1 is for those patients at the early onset of their LTC experience and can benefit from light touch interventions, particularly looking at lifestyle changes and decisions. The target workforce for these T1 webinars is: Social prescribers / Care coordinators / Health & Wellbeing coaches / Social Care staff / Voluntary and Community Sector staff / Any other workforce who has service users with early onset LTC and can benefit from light touch interventions, particularly looking at lifestyle changes.

2) Tier 2 is for those patients with more established LTCs but responding well to interventions. The target workforce for T2 webinars is main grade clinicians – GPs, nurses, pharmacists and other Allied Health Professionals.

3) Tier 3 is for those patients with complex conditions or those not responding to/complying with interventions. The target workforce for these webinars is senior clinicians – GPs and advanced clinical practitioners.

Skills Bootcamps

Date: Thursday 18 April 2024 at 5pm

The Mayor has secured **£21.6 million grant** funding from the Department for Education (DfE) to deliver Skills Bootcamps in London in 2024-2025. The application window is now open to training providers and employers looking to upskill their current workforce and closes at 5pm on Thursday 18 April 2024.

Skills Bootcamps aim to help Londoners aged 19+ to enter employment, upskill or change career and are open to adults who are full-time or parttime employed, self-employed or unemployed, as well as adults returning to work after a break. [Skills Bootcamps for Londoners | London City Hall](#).

Becoming a Numeracy Champion Programme

Date: A selection of dates available, [access further information here](#)

National Numeracy are a charity working with NHS England to support the healthcare support workforce to gain the confidence and skills they need with numeracy to move on in their careers.

They have developed a CPD accredited course, “Becoming a Numeracy Champion” (“BaNC”) designed to support key stakeholders across the NHS to gain the skills they need to support numeracy in the workplace. The programme focuses on changing mindsets and overcome anxieties around maths. It explores a unique psychological framework helping anxious learners move beyond their fear of maths and engage with learning using the National Numeracy Challenge (NNC) online resource, without the need for face-to-face maths teaching. The “BaNC” programme and the National Numeracy Champion resource are designed to provide that first step acting as a “readiness programme” and unlocking the potential of staff who might be “hiding their fears” within the workforce.

The programme is designed for Learning & Development staff, Apprenticeship Leads, Library or HR Managers, Practise Educators or Practise Managers. It will be run online over Zoom for 3 hours over 2 consecutive weeks. This programme is funded by NHS England, there is no direct cost for NHS Employers.
